

“Our Family”

Serving the Community Family

Magean Ward

Balancing the responsibilities of being a single parent to a five and three year old, working double shifts on Saturday and a single shift on Sunday with full time attendance at a community college practical nursing program were daunting challenges for Magean Ward. Magean came to the attention of “**Our Family**” through the Human Service Ministry of Our Lady Star of the Sea about fourteen months ago.

“**Our Family**” offered Magean assistance with child-care and living expenses. A monthly stipend enabled Magean to concentrate on her studies during her last months of school. Not only the financial support but also the constant communication and personal interface by “**Our Family**” representatives helped her successfully complete the Daytona Beach Community College LPN program. She graduated with honors in August and passed her LPN qualifying exam in September. She has a well paying full time job in the area and after her first paycheck will be making it on her own. She may be financially on her own but she’ll always be a part of “**Our Family.**”

Magean invited her three friends from “**Our Family**” to her graduation.
